2101 O'Neil Avenue
Cheyenne, WY 82001

Dear Steve,

It seems like small words in just thanking you for speaking at the 2009 Wyoming SHRM State Conference and presenting "*Enjoy The Ride.*" You blew the socks off all of our attendees!

I heard so many glowing comments from our attendees. They all were blown out of the water. One told me "We are going to have him come and speak for the Chamber of Commerce. We need him in our town." Another said "Wow, I don't think I have ever heard a better speaker. I can't believe he came to Wyoming." And another stated, "His message is one we need for our company and we need it now!"

I heard you speak for the first time at the SHRM National Conference in Washington DC. This was my first national conference and it was amazing. I went to your session entitled "*Leading with Heart.*" At that time, I realized I had lost my passion in a profession I loved. When you said "Care enough to know and know enough to care," it hit me like a brick. From that moment on, I have tried to get that passion back. I have had the pleasure to hear you several more times. I just knew I had to have you come to Wyoming.

I recommend anyone who has the chance to hear or have you speak not to hesitate. They will not be disappointed. Your message is powerful! Additionally, I refer to your books when I am struggling and need to get back on track.

Regards,

Judi Just
2009 Wyoming SHRM State Council Director
